Vertikal Pneumatisk Trådavskärmningsmaskin för AWG#18-32#

Model No. JW-ST04

SPECIFICATIONS

Typ	Vertikal pneumatisk trådavskärmningsmaskin
Diameter	AWG#18-32#
Cylinder	Dubbelrörlig cylinder
Styrning	Pneumatisk
Lämplig för	AC/DC, strömkabel, höljetråd, datorkabel, elektronisk avtagare
Funktion	Skärning och avplåning
Design	Förbättrad flygplansdesign, fri från fjäderbrott

vertikal pneumatisk trådavtagningsmaskin, trådavskärmningsmaskin, pneumatisk trådavskärmningsmaskin, parallelltrådsvridningsmaskin
, pneumatisk elektrisk trådavdragningsmaskin för AC/DC, strömkabel, höljetråd, datorkabel, elektronisk avtagare. Pneumatisk styrning, förbättrad flygplansdesign, avancerad och lämplig diameter AWG#18-32# dubbelrörlig cylinder, fri från fjäderbrott.
De två cylindrarna med olja och gas ger regelbunden oljetillförsel till cylindern, minskar internt slitage och förlänger livslängden.
Unik glidsadel, stabil reciprocerande rörelse, noggrann skärning och avplåning.
Pneumatisk styrning, lätt och smidig, är lätt att använda.
Debugga strukturen och justera tjockleken på siktlinjen.
Den är lämplig för bearbetning av stora och små trådar samt långa och korta trådar. Såsom AC/DC, strömkabel, mantelkabel, datorkabel, elektronisk ledning, flerledartråd, kabel, platt ledning, etc.;

3F pneumatic
peeling machine
Multiple simultaneous stripping
and twisting

Vertical peeling machine

Three-cylinder structure clamping line, stripping is completed at one time

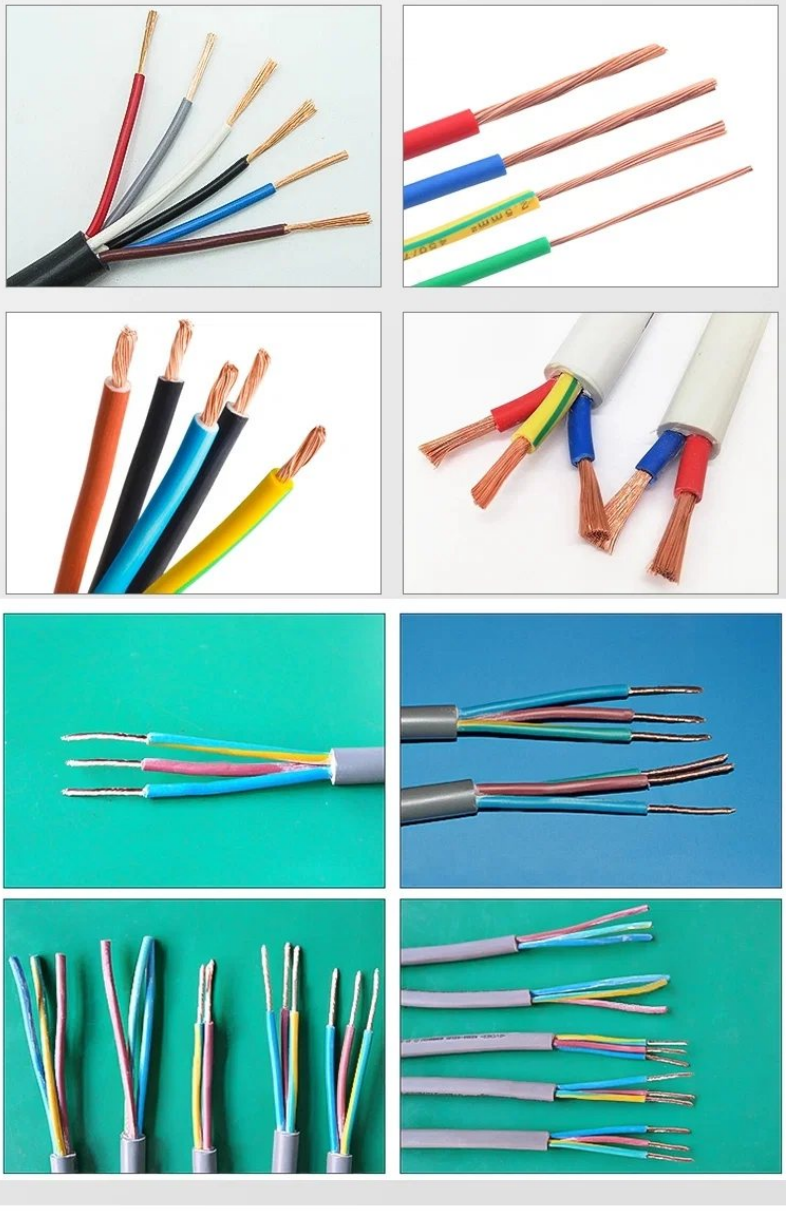

Two-pole design

Three-cylinder structure clamping line, stripping is completed at one time

Processing sample display

This machine is mainly used for stripping (cutting) the tails of multi-core computer cables, telephone cables, parallel cables and power cables. It is easy to operate and has a wide range of uses.

Product parameter

3F peeling machine

Specially designed for electronic stripping of small wires, exquisite design, compact, easy to operate, multiple simultaneous stripping functions double the work efficiency

Product number	WPM-3F
product name	3F pneumatic peeling machine
specification	330*190*270mm
weight	12KG
power supply	AC110V/220V
Air pressure	3-7kg
Stripping diameter	32#-16#
Stripping length	25mm

3FN peeling machine

Thin to medium thick computer core wire, telephone wire, power cord, etc. tail stripping and twisting， Peeling, twisting, one-time completion, high efficiency and stability

Product number	WPM-3FN
product name	3FN pneumatic peeling machine
specification	330*240*290mm
weight	13KG
power supply	AC110V/220V
Air pressure	3-7kg
Stripping diameter	32#-18#
Stripping length	3-25mm

3FN (delayed) peeling machine

Thin to medium thick computer core wire, telephone wire, power cord, etc. tail stripping and twisting

Peeling, twisting, one-time completion, high efficiency and stability

Product number	WPM-3FN delay
product name	3FN pneumatic peeling machine
specification	330*240*290mm
weight	13KG
power supply	AC110V/220V
Air pressure	3-7kg
Stripping diameter	32#-18#
Stripping length	3-25mm

4F peeling machine

Specially designed for small-line electronic peeling, exquisite design, compact and easy to operate, Multiple simultaneous stripping functions double the work efficiency

Product number	WPM-4F
product name	4F pneumatic peeling machine
specification	330*240*330mm
weight	15KG
power supply	AC110V/220V
Air pressure	3-7kg
Stripping diameter	32#-14#
Stripping length	25mm

4FN peeling machine

Thin to medium thick computer core wire, telephone wire, power cord, etc. tail stripping and twisting, Peeling, twisting, one-time completion, high efficiency and stability

Product number	WPM-4FN
product name	4FN pneumatic peeling machine
specification	330*400*345mm
weight	14KG
power supply	AC110V/220V
Air pressure	3-7kg
Stripping diameter	32#-18#
Stripping length	3-25mm

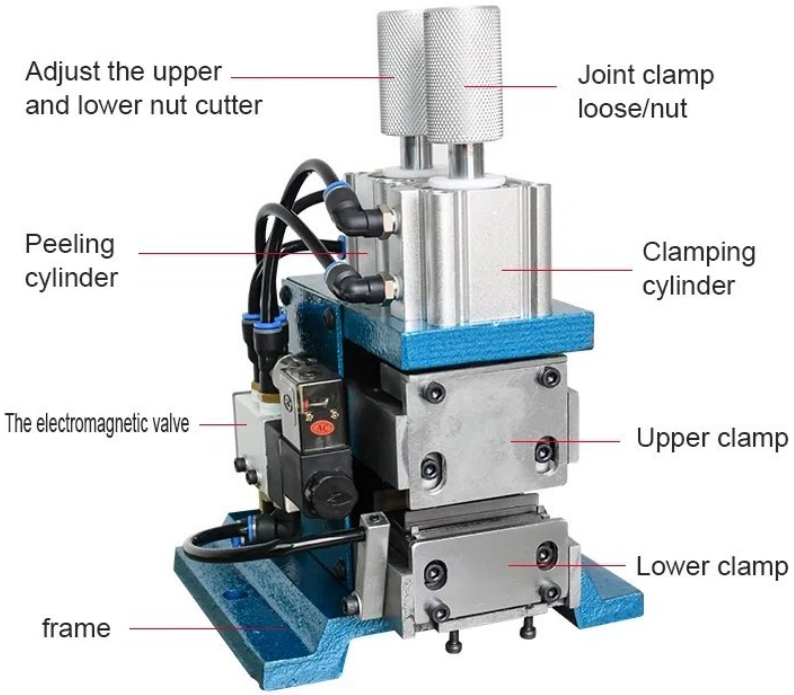

4FN (delayed peeling) machine

Thin to medium thick computer core wire, telephone wire, power cord, etc. tail stripping and twisting, Peeling, twisting, one-time completion, high efficiency and stability

Product number	WPM-4FN delay
product name	4FN pneumatic peeling machine
specification	330*190*345mm
weight	14KG
power supply	AC110V/220V
Air pressure	3-7kg
Stripping diameter	32#-18#
Stripping length	4-20mm

Product analysis

Random Accessories

接气管1个

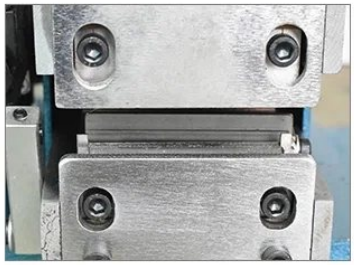

脚踏板1个

内六角扳手1套

Product details

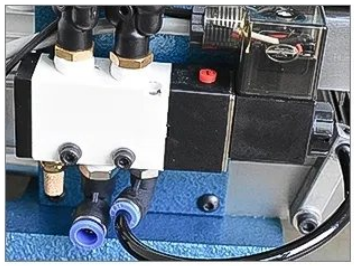

Premium blade

Using high-quality wear-resistant blades, durable and long-lasting sharpness

Auxiliary cylinder

The length of the stripping wire is controlled by the valve on the cylinder and the left and right twisting regulating valve to control whether the stripping wire is available Wound core wire

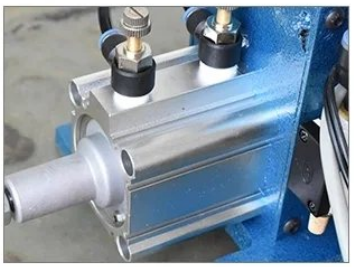

Pneumatic control

Pneumatic-electric control, improved model, advanced design, applicable wire warp AWG#18-32

Master cylinder

The length of the core wire is controlled by the nut behind the cylinder and the left and right screw nut to control the length of the core wire

Pneumatic Wire Stripping Machine, Wire Stripping Twisting Machine, Pneumatic Wire Stripping Twisting, Parallel Wire Twisting Machine

Pneumatic Wire Stripping Machine, Wire Stripping Twisting Machine, Pneumatic Wire Stripping Twisting, Parallel Wire Twisting Machine
